

Acknowledgement

I wish to express my sincere gratitude to my parents Mr. and Mrs. Amugune for supporting and encouraging me to come this far in life, and to all those who made it possible for me to successfully complete this project.

Special thanks to my supervisor, Eng. Matheri, for his guidance, constructive criticism, and understanding during this project period.

Special thanks also to Madam Apudo Susan Owour for using her questionnaire as a guideline for collecting sampling data.

And finally, my sincere regards to all my fellow students and friends for their moral, material and physical assistance and support during the whole project period.

Abstract

This report is a general representation of the current parking situation and to investigate the parking characteristics in Nairobi County`s Central Business District. It describes and outlines parking demand management, the importance of providing sufficient parking in an urban setting and identifies some of the challenges faced by vehicle users due to congestion in the CBD.

It further elaborates that these problems are mainly caused by the imbalance between parking demand and supply, poor management policies, poor price management by both on and off street parking authorities and motorists as well

Field data analysis on both on and off street parking facilities was carried out and also questionnaire responses from a few interviewed motorists were used to come up with probable recommendations that might help mitigate some of the parking problems. However, this study is not conclusive and the suggestions that have been provided are just a catapult for further future research.

TABLE OF CONTENTS

Title	
Acknowledgment.....	i
Abstract.....	ii
Table of Contents.....	iii
List of Appendices.....	viii
Acronyms.....	viii

CHAPTER 1 – INTRODUCTION

1.1 General.....	1
1.2 Description of Study Area	1
1.3 Problem Statement.....	3
1.4 Objectives and Scope of the Study.....	5
1.5 Limitations of the Study.....	6

CHAPTER 2 - LITERATURE REVIEW

2.1 1 Common terminologies used in the study.....	7
---	---

2.2 Parking Supply	9
2.3 Parking Demand	9
2.4 Problems Associated with Parking	10
2.5 Size and Position of Parking Bays	10
2.6 Parking Control and Collection of Charges.....	11
2.6.1 On Street Parking Conditions in relation to the City Council of Nairobi.....	11
2.6.2 Off Street Parking Conditions	12
2.7 Parking Pricing and other Related Charges.....	14
2.7.1 Parking Prices.....	14
2.7.2 Clamping and Towing Charges	12
2.8 Layout of Parking Spaces.....	16
2.9 Off street parking facilities.....	16
2.10 Parking for the Disabled and on Footways.....	17
2.11 Parking Standards.....	18
2.12 Parking Finance.....	19
2.13 Clear Road Widths for Traffic	19

CHAPTER 3 – DATA COLLECTION METHODOLOGY

3.1 Introduction.....	20
3.2 Data Collection Methods Applied.....	20
3.3 On street Parking.....	21
3.4 Off Street Parking	23
3.4.1 In Out Survey Method.....	23
3.4.2 Surface Parking	24
3.4.3 Underground Parking	25

CHAPTER 4 – RESULTS/RAW DATA

Attached:

4.1 Results from Questionnaires	
---------------------------------	--

CHAPTER 5 – DATA ANALYSIS AND DISCUSSION

DATA ANALYSIS

5.1 Parking Interviews Analysis.	26
---------------------------------------	----

5.2 On Street Parking Data Analysis.....	29
5.3 On Street Parking Data Analysis	
5.3.1 Off street parking Data analysis: Surface parking	
5.3.2 Off street parking Data analysis: Underground parking	

DISCUSSION

5.4 Parking Characteristics	46
5.4.1 Parking Supply.....	46
5.4.2 Parking Demand.....	47
5.4.3 Parking Utilization.....	48
5.5 Other Findings.....	49
5.6 Merits and Demerits of Adopted Types of Parking.....	51

CHAPTER 6 – CONCLUSION AND RECOMMENDATIONS

CONCLUSION

6.1 Introduction.....	53
-----------------------	----

6.2 Parking Management53

6.2.1 Carrot and Stick.....53

RECOMMENDATIONS

6.3 Introduction.....55

6.4 Other Recommendations56
